A natural listening experience

While traditional hearing aids capture and process sound outside of the ear, Lyric uses the natural anatomy of the ear to amplify and give you a full, natural listening experience.

Because Lyric is placed in the ear canal near the eardrum by a trained professional, it is the world's only 100% invisible hearing aid.

Micro-engineering at its best

Lyric's miniature size combined with its exceptional build quality, allows it to withstand the challenging conditions within the ear canal. Originating in Silicon Valley, Lyric incorporates Swiss precision engineering to create a work of technological art.

Packed with power
