

Life is on

We are sensitive to the needs of everyone who depends on our knowledge, ideas and care. And by creatively challenging the limits of technology, we develop innovations that help people hear, understand and experience more of life's rich soundscapes.

**Interact freely. Communicate with confidence.
Live without limit. Life is on.**

Bridging the understanding gap

The sound of the voice is picked up by the Roger microphones and sent to the Roger receivers that are connected to the hearing aids or cochlear implants.

Please contact your hearing care professional to learn more about Roger for Education.

Roger™ for Education Bridging the understanding gap

PHONAK
life is on

Active participation in the modern classroom

A modern classroom is made up of many elements which create a dynamic learning environment. From peer-to-peer work and lectures to activities which include various forms of multimedia, it's a place designed for both students and teachers to participate, engage, discuss and truly interact.

Roger for Education portfolio

The Roger for Education portfolio includes carefully designed products to suit every student and every situation. From the new Roger Touchscreen Mic and the Roger Pass-around, to a variety of Roger receivers, soundfield speaker systems and other classroom devices, complexity is reduced and children can hear it all!

Pick up the sound...

Roger Touchscreen Mic

Simple and intuitive microphone for the teacher to wear around the neck or place on a table to pick up speech from a group of students.

Roger Pass-around

Student microphone that can be passed from one student to another, allowing the child with a hearing loss to hear not only the teacher but also classmate comments.

Roger Multimedia Hub

Can be connected to any multi-media device used in a classroom or used as a standalone media transmitter by an individual student listening to an audiobook.

... and bring it to the child

With several styles of Roger receivers available, there is a solution for every child, regardless of the hearing technology they are currently using.

Roger design-integrated receivers

These discreet Roger receivers perfectly complement the sleek contours of a Phonak hearing aid.

Roger X

The miniature universal Roger receiver is compatible with virtually all hearing aids, implants and streamers.

Roger MyLink

An easy-to-use Roger receiver worn around the neck and compatible with any hearing aid or cochlear implant with T-Coil.

Roger Focus

A discreet receiver for those who struggle in noise e.g. children with UHL, APD or ASD.
